

Kokoist Certification Materials

Hey there soon to be KOKOIST Certified Tech!

KOKOIST issues us a 20% off class discount code, for enrolled students. It is emailed to you after enrolling.

Things to know about our code before using it:

- Our code is only for enrolled students.
- You must use the code at checkout to receive your training manual, this let's KOKOIST USA know you are an enrolled student.
- The code will deduct 20% off of regular priced items.
- Our code will be extended for use after certification portfolios are due, so feel free to only buy what you need now as you'll have the opportunity to shop at 20% again.

Our class discount is only through KOKOIST USA. *[You can visit [the distributors list here](#) to see if there is a distributor in or nearest to your country. Keep in mind that they may not stock all items including student training manuals. Reach out to them for the best ordering option, if you still wish to order through them.]*

In the chart below, REQUIRED means that these items are needed to obtain your certification.

RECOMMENDED means that we'll be doing demos with these products, but either you won't have to submit an assignment with them, or you can use other KOKOIST colors (items) in your kit to complete that assignment, and still be valid for certification. It also means this is a hot-seller and you may want to incorporate it into your collection. Again, these items will enhance your KOKOIST Certification experience but are not required to qualify for your certification.

You are responsible for purchasing only those items in the “REQUIRED” column below. You will have to submit a picture of your kit items along with your portfolio assignment. You will be completing a portfolio based on demos from the training, that will be due one week after the training sessions are released.
